

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on March 22, 2010 has been entered.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James F. Thompson (Reg. No. 36,699) on April 9, 2010.

The application has been amended as follows:

**In the claims:**

Claim 95. (Currently Amended) Apparatus for handling a request for a network address allocation, comprising: respective interfaces to a host and an address allocation device; a central processing unit coupled the interfaces; and memory coupled to the central processing unit, the memory ~~being operative to store~~ stores (1) information

Art Unit: 2181

including a list of host identifiers, and (2) computer programs including a packet parser and a packet composer, wherein the central processing unit ~~is operative to execute~~ executes the packet parser and packet composer computer programs to cause the apparatus to perform a method including: receiving the request from the host; retrieving a host identifier from the request; matching said host identifier with the list of host identifiers; maintaining a state of authentication for the host associated with said host identifier if a match is found; inserting a proxy address in a relay agent address field in the request; transmitting said request to an address allocation device to issue or renew a host address if said host associated with said host identifier is in a state of authentication; receiving a response from said address allocation device; modifying a value in a server identifier field in said response to match said proxy address; and transmitting said response to said host associated with said host identifier.

Claim 102. (Currently Amended) A DHCP proxy for handling a DHCP discovery packet, comprising: respective interfaces to a host and an address allocation device; a central processing unit coupled to the interfaces; and memory coupled to the central processing unit, the memory ~~being operative to store~~ stores (1) information including a list of host identifiers, and (2) computer programs including a packet parser and a packet composer, wherein the central processing unit ~~is operative to execute~~ executes the packet parser and packet composer computer programs to cause the apparatus to perform a method including: retrieve the DHCP packet from the host; retrieving a host identifier from the DHCP discovery packet; matching said host identifier with the list of host identifiers; maintaining a state of authentication for the host associated with said

Art Unit: 2181

host identifier if a match is found; inserting a proxy address in a gateway IP address (GIADDR) field in the DHCP discovery packet; transmitting the DHCP discovery packet to an address allocation device to issue or renew a host address if said host associated with said host identifier is in a state of authentication; receiving a DHCP offer packet from said address allocation device; modifying a value in a server identifier address (SJADDR) field in said DHCP offer packet to match said proxy address; and transmitting said DHCP offer packet to said host associated with said host identifier.

3. The following is an examiner's statement of reasons for allowance: please, refer to the reasons for allowance indicated in the Non-Final Office Action date May 30, 2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NIKETA I. PATEL whose telephone number is (571)272-4156. The examiner can normally be reached on M-F 8:00 A.M. to 6:00 P.M, with every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alford Kindred can be reached on (571) 272 4037. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
